

SURVEY FEEDBACK

We would like to thank all the parents that completed the survey. Through listening to you and your children our new menu is based upon the feedback we have received.

We know that school meals play a huge part of the school day, so we strive to ensure the menu is varied, appealing and nutritionally balanced. Our menu is fully compliant with the School Foods Standards, which are intended to help children develop healthy eating habits and ensure that they get the energy and nutrition they need across the whole school day.

More halal options

Everyday we offer a Halal / None Halal option on the menu. We would like to confirm that our food storage, preparation and cooking processes for Halal and Non Halal foods ensure that these are kept separate at all times.

Pasta and jacket potatoes to be available more frequently

Pasta and jacket potatoes are on alternate days throughout the 3-week menu cycle.

Portions sizes

Our portion sizes are mirrored with the School Food Standards and we offer 2 different portion sizes for Key stage 1 and Key stage 2 pupils.

All our menus are nutritionally balanced in order to meet the nutritional needs of pupils. These are monitored by our Company Nutritionist, Anushka.

Pupils can "top up" their main course from the 8 fresh salads and our 2 freshly baked breads that are available daily. All of which the children can revisit as often as they wish. This is supported further by our fresh fruit platters and yoghurt options to accompany the main pudding of the day.

Menu variety

By working to a 3 week cycle, we have found that with the choice of meat, vegetarian, pasta and jacket potato options, these provide the children with sufficient choice every lunch time.

We always ask parents to go through the menu at home with your children each week, to discuss the options available to them daily. That way you also will be able to influence their personal choices, making a balanced approach to their weekly diet.

We once again thank you for your feedback.
